MIOP's objective is to study the industrial sector in the GCC and its development needs in order to identify investment opportunities and to promote the most promising projects among them on the regional and national level through investment seminars, workshops and other specialized public events. The Program has identified and promoted more than 361 projects and potential investment opportunity within the GCC region.

The MIOP public events are held across the GCC Region. Major industrial projects cover sectors such as agro-industries and food technology, textile and leather, paper and packaging, nonmetallic minerals, chemicals, medical and pharmaceuticals, plastics and rubber, engineering, metals, etc.

The Gulf Organization for Industrial Consulting (GOIC) was founded in 1976 by the member states of the Gulf Cooperation Council (GCC) - Bahrain, Kuwait, Oman, Qatar, Saudi Arabia and the United Arab Emirates. The organization was conceptualized as a knowledge-hub and industrial investment promotion catalyst for the purpose of industrial diversification and development within the GCC countries.
